<b>KERN-TULE RIVER WATERSHED</b>			
<b>Doyle Springs Planning Unit</b>			
<p>This is a letter written on behalf of the Doyle Sprigs Association Board to commend you on your clear and concise Draft LCP. The Board has the following comments:</p> <ol style="list-style-type: none"> <li>1. The LCP has accurately reported on the geography, history of Doyle Springs, and has correctly stated the Board's proposal to trade land with PG&amp;E.</li> <li>2. The Board is happy the LCP does not exclude this trade of land with PG&amp;E.</li> <li>3. The Board is very encouraged by the recommendation for a combined plan between USFS, PG&amp;E, and the Association to reduce the fire hazard of the area.</li> <li>4. The Board sees no conflict in having more prominent signs to the upper fisherman's trail.</li> </ol> <p>We understand that the Doyle Springs Planning Unit is a pilot program that will get early review, and we look forward to the resolution of the land trade. Thank you for your efforts and ideas.</p>	<p>John Weins, Doyle Springs Association Board of Directors</p>	<p>No</p>	<p>Comment noted.</p>
