CARRIZO PLAIN			
Carrizo Plain Planning Unit			
<p>I have read the proposed recreation use for the abandoned buildings at the Carrizo Plain site and would agree that this should be used to house individuals that would like to stay overnight to observe the wildlife habitat of the Carrizo Plains. It would be a wonderful to refurbish the building into an educational/interpretive center to be used especially by school age children from the San Luis and Monterey County areas. Actually, it could be used by schools statewide.</p>	<p>Anonymous</p>	<p>No</p>	<p>Comment noted. The Stewardship Council is committed to identifying synergies between the Youth Investment Program and the Land Conservation Program, to be determined on a planning unit by planning unit basis, as to what is appropriate in each area. This being conducted to facilitate access by youth program grantees to the Watershed Lands.</p>
